

# CHELTENHAM PLAYHOUSE

## ***Practicals & Hardware***

Colour filter frames are included with all lantern types.

Barn doors are included for all Fresnel types

## ***Control***

An ETC Ion Xe 32,768 channel DMX/Network desk is provided with a 10 fader motorised wing. Also, two touch screens plus keyboard and mouse.

DMX and Network connection points are provided in the lighting control room, sound control room

DMX outputs are available for basic (external) control, or as an emergency fall back desk.

A splitter in a 19" rack unit located on the SR concrete gantry, for on-going distribution to DMX controllable fixtures and to the dimmer racks. Patching is not required if using the network option.

## ***Dimming***

96 x 2.4kW D54 Strand Permus Dimmers (with DMX to D54 converter). Dimmers are hard-wired to 15A sockets throughout the stage and auditorium (some sockets are paired). Please see the below drawings for locations of outlets.

1 x Strand 6 Channel House Lights Dimmer. Dimmers are hard wired to general and architectural lighting throughout the auditorium and beyond. This dimmer pack is pre-set to respond to the single *channel 97*.

1 x 63A-3ph supply is available SR (Scene Dock) for additional dimmers if needed.

## ***Important Notes***

The venue's equipment must not be modified or altered in any way (including removal of plug tops).

This equipment list is available as a guide only. Whilst the Cheltenham Playhouse endeavours to keep all items available, no guarantees can be made (due to loss, damage, servicing etc.).

Discovery of any damaged, or non-operational, item must be notified immediately to the Technical Team.
